

For Zakynthos Weddings – DJ Mac

A short, practical guide to help you and your planner organise the music and sound for your wedding day in under 2 minutes.

Ceremony

Please check:

- Is there power at the ceremony location?
- Does the area provide shade/cover for the equipment, or will a separate cover be needed?
- Do you want specific songs for: entrance, rings, signing, exit?
- Will there be a microphone for the officiant?
- Is a second setup needed (if the ceremony is far from the party area)?

Notes (couple / planner):

Cocktail Hour

Please check:

- Is there power at the cocktail area?
- Does the area provide shade/cover for the equipment, or will a separate cover be needed?
- Would you like a DJ set only, or a combination of DJ set & live sax?
- Would you like a specific music feel (chill, soul, lounge, summer vibes)?
- Where will guests be — mostly gathered in one place or spread out?
- Is a second setup needed (if the cocktail hour is far from the party area)?

Notes (couple / planner):

Dinner

Please check:

- Would you like a DJ set only, or a combination of DJ set & live sax?
- If you'd like sax during dinner: do you prefer relaxed, more upbeat, or a mix?
- Will there be speeches that need a microphone?
- Is a second setup needed (if the dinner area is far from the party area)?
- Is there power at the dinner area?

Notes:

Party

Please check:

- Preferred music styles/genres?
- “No-go” tracks / songs you definitely do NOT want played:
- Would you like live sax during the party (30 minutes max for the best energy)?
- Do you have a specific song in mind to “open” the party?
- Do you have a specific song in mind for the very last dance (last song)?
- Do you know if your guests have any strong preferences or special requests?
- Are there any volume limits set by the venue?
- What is the final end time due to local regulations/curfew?

Notes:

Sound & Equipment

Please check:

- Does the venue have its own PA system?
- If not, a full PA system + DJ booth will be needed from me.
- Does the venue have its own party lights for the dancefloor?
- If not, would you like me to provide party lights for the dancefloor?
- Does the venue have its own smoke machine?
- If not, would you like me to provide a smoke machine?
- Is there easy access for setup / load-in and parking?
- How many guests are you expecting on your final guest list?

Notes:

Helpful Information for You

All setups are fully professional and adapted for outdoor venues in Zakynthos.

Communication is always coordinated clearly with your wedding planner or venue.

The DJ + Live Sax Combo is the most popular package for couples from the UK & Ireland.

For the best planning and sound setup, please make sure I receive the completed checklist at least 4 months before your wedding date.
